PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer

Lebanon / Remote | 2021 - Present

- Delivered 20+ production web applications, e-commerce platforms, dashboards, and custom business solutions across multiple industries.
- Designed and implemented full-stack features from requirements through development, testing, deployment, and post-launch support.
- Developed backend services and APIs using Node.js, Express.js, PHP, and REST APIs, with MySQL, PostgreSQL, and MongoDB.
- Built responsive frontend interfaces and application workflows using JavaScript, React.js, Next.js, HTML, and CSS.
- Integrated payment gateways, third-party APIs, authentication systems, and business automation workflows.
- Managed deployments, hosting, DNS, Cloudflare, Docker/CI/CD workflows, migrations, and production troubleshooting.
- Improved application performance, reliability, security, and technical SEO through caching, asset optimization, database optimization, and code refinement.

WordPress & Full-Stack MERN Developer

Najahak.io | Beirut, Lebanon | Jan 2026 - Jul 2026

- Built and maintained production full-stack applications using MongoDB, Express.js, React, and Node.js.
- Developed backend APIs, business logic, database workflows, and administrative tools.
- Built responsive frontend features and integrated them with backend services and REST APIs.
- Developed custom WordPress plugins and WooCommerce functionality for business-specific workflows.
- Implemented multilingual, affiliate, LMS, and e-commerce systems with complex workflow logic.
- Worked on performance optimization, deployments, troubleshooting, SEO, and production support.
- Collaborated on UI/UX improvements to deliver responsive and consistent user experiences.

PROFESSIONAL EXPERIENCE - CONTINUED

WordPress Developer
Inspiral Solutions | Lebanon | 2022 - 2025

- Improved WordPress website performance by up to 40% through caching, asset optimization, code refinement, and page-speed best practices.
- Developed and maintained custom themes, plugins, templates, and reusable components for client websites.
- Converted UI designs into responsive, cross-device pages using HTML, CSS, JavaScript, PHP, and WordPress templates.
- Expanded site functionality through project-specific PHP and JavaScript customizations while strengthening SEO readiness and security.
- Resolved website and hosting issues, completed site migrations, and coordinated with designers and internal teams to deliver requirements on schedule.

SELECTED PROJECTS

- **Smart Garden:** Built a WooCommerce store for hydroponic and smart-gardening products, emphasizing clear shopping flows and fast performance.
- **Claline Pharmacy:** Developed an online pharmacy and beauty store with product filtering, structured categories, and an intuitive shopping experience.
- **Calia Group:** Created a modern clothing website with dynamic product showcases and optimized e-commerce navigation.
- **Fun Square Leb:** Built an entertainment-center website with a custom layout, events showcase, and integrated booking and contact flow.
- **Restaurant Le Figuier & Baladi Restaurant:** Delivered restaurant websites featuring menus, galleries, reservations, ordering, and location information.
- **LiftFit Gym:** Built a mobile-first Framer landing page with modern UI, smooth animations, and reusable components.
